## BOOK OVERVIEW

When a young girl climbs a forbidden lemon tree in her grandmother's Cairo garden, she has no idea she's taking the first step on an extraordinary journey that will span continents and consciousness itself. Now acclaimed filmmaker and wisdom keeper Iman Kamel invites you to follow her path of unexpected awakening - from dancing with dolphins in the Red Sea to fever dreams in China's remote temples, from Berlin's underground art scene to sacred ceremonies beneath desert stars.

Through the five phases of the Lotus-Born Heart Process, readers discover how quantum physics confirms what temple priestesses always knew: reality is far more magical than we imagine. Whether navigating a near-death experience or choosing morning socks, every moment becomes a gateway to transformation.

# ESSENTIAL INFORMATION AND BOOK OVERVIEW

## AUTHOR BIOGRAPHY (SHORT FORM)

Iman Kamel invites readers to climb lemon trees into infinite possibilities. An award-winning filmmaker turned bestselling author, she weaves quantum science with ancient wisdom through her own extraordinary journey - from Cairo's hidden gardens to Berlin's underground art scene, from Bedouin firesides to remote Chinese temples.

Her debut solo book "Quantum Leaps and Lost Socks" emerged from decades of cross-cultural exploration and a profound initiation at Egypt's Dendera Temple. Recognized by the World Economic Forum as an "Iconic Woman Creating a Better World for All," Iman guides readers to discover the extraordinary hiding in their ordinary moments.

When not writing or filming, she can be found dancing with dolphins in the Red Sea or sharing cosmic tea ceremonies with fellow seekers around the world.
